Style is more than just choosing a visual design. We tailor your equipment as a complete composition to perfectly match you and your style. Get inspired!

## Design Options

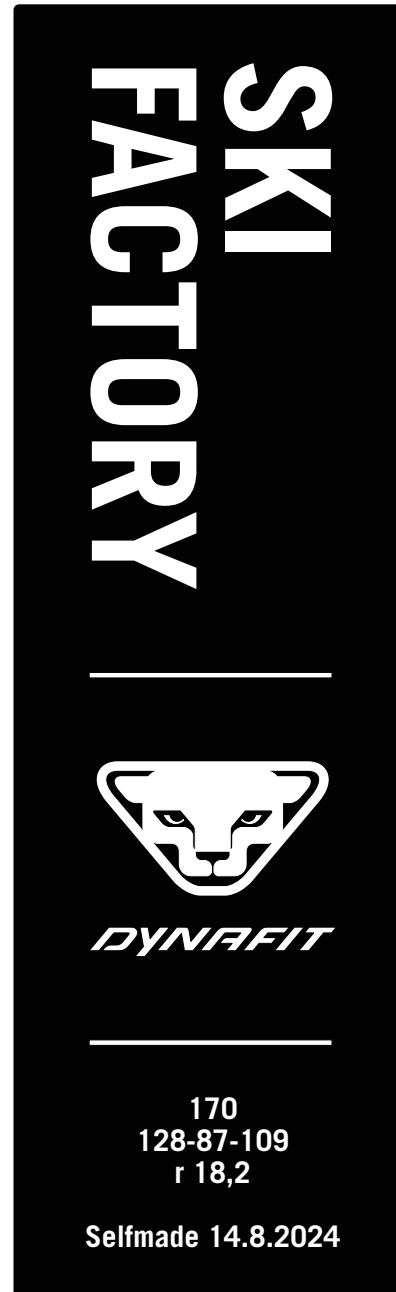

The possibilities for designing a ski are diverse. Form, function, and appearance are inseparably linked.

We offer you three options to realize your surface design: a plastic topsheet, a wood veneer, or a minimalist carbon surface. Each option has different advantages, which we have summarized for you so you can choose the best material for your needs. For a comprehensive look, you can also choose matching sidewalls made of colored plastic or elegant bamboo.

All Ski Factory skis feature a metal plaque with a custom laser engraving that includes the production date, serial number, and ski dimensions.

### Ski Factory Plaque

They are placed on the right side behind the binding of every pair of skis and are personalized with your ski data.

For inspiration on designs, we've already implemented with satisfied customers, check out our Instagram channel or our gallery:

# Custom Plastic

Particularly colorful designs with detailed execution can be printed onto a plastic surface and used as a topsheet – just like on conventional skis.

We're happy to assist you in realizing your design idea: simply send us a sketch, description, or file of your design concept, and we'll send you a draft that we can finalize together. Feel free to use our design sketch sheet as a template.

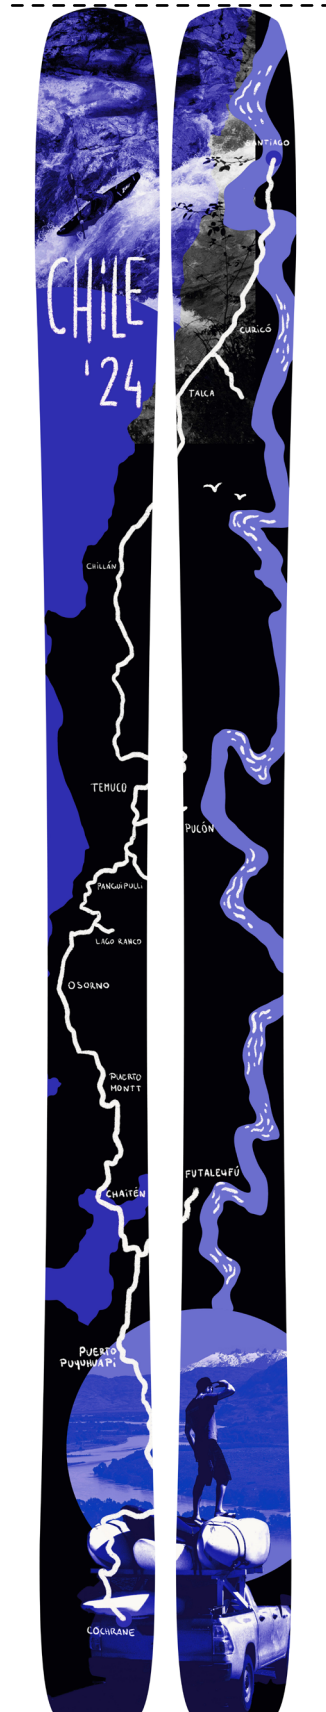

If you prefer to create your design entirely on your own, we can send you the appropriate template as a .DXF, .SVG, or .PDF file. Please submit your final design as a full-scale PDF or Illustrator file.

## Design Area

You can design the entire ski surface and the color of the sidewalls freely.

### Example

Topsheet made of black plastic with travel pictures & Ski Factory plaque

Design area plastic topsheet

## Examples

### Custom Plastic

Colorful graphics can be best implemented this way. The textured surface makes the ski durable and gives it a high-quality appearance.

### Pricing

For your individual design, we charge a flat rate of €250, including graphic work, revisions, and the finished printed plastic topsheet. If extensive changes are requested, we reserve the right to adjust prices according to the amount of work involved.

### Lead Time

Please contact us at least 6 weeks before the workshop, as we do not print the topsheets ourselves, and coordination with external service providers takes time.

# Ski Factory Plastic

If you're mainly interested in the construction of your ski and its technical features and want a simple and cool design, just choose one of the designs created by our expert team.

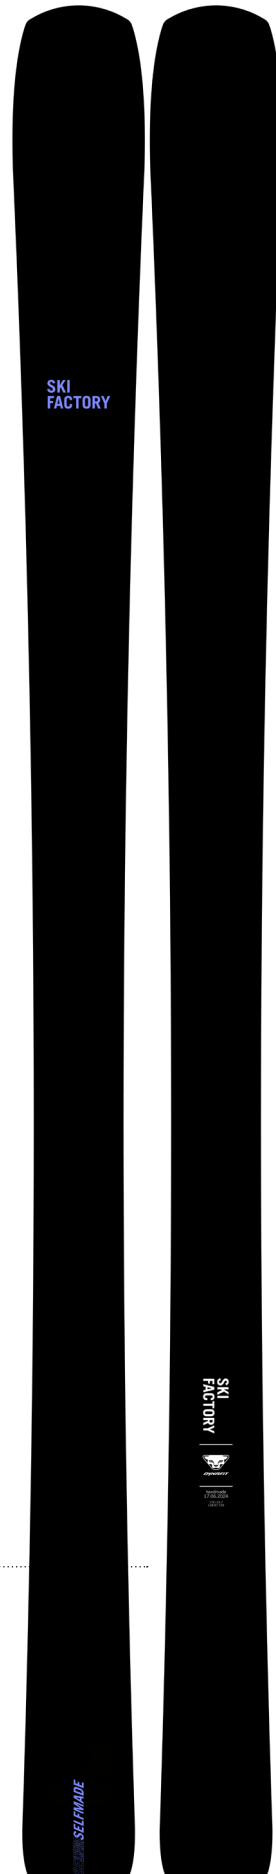

## Design Area

You can choose between two designs: Clean Look and Speed Look, each available in 3 color options, and you can also freely choose the color of the sidewalls.

**SKI  
FACTORY**

**SELFMADE**

## Ski Factory Clean Look

Simple black, the Ski Factory topsheet always fits. The logo comes in various colors and, together with the sidewalls, makes your ski a real eye-catcher.

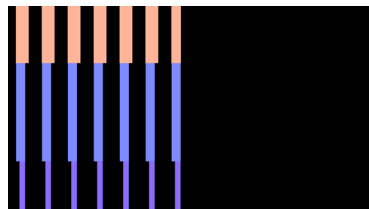

## Pricing

The cost for a Ski Factory design is already included in the base price for the workshop.

## Lead Time

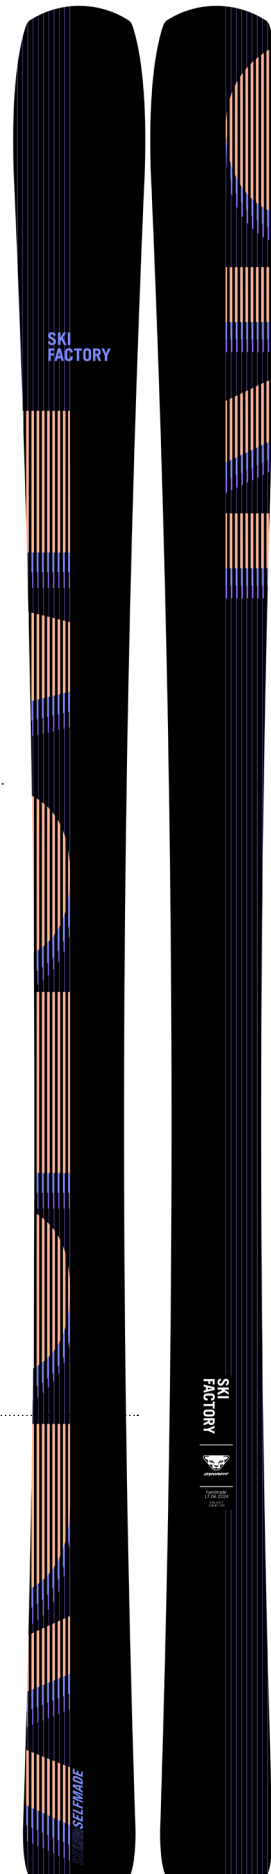

To allow us to adapt your design to your individual shape and prepare the sidewalls, please inform us at least 3 weeks before the workshop if you would like a Ski Factory design for your ski.

**SKI  
FACTORY**

*SELFMADE*

## Ski Factory Speed Look

The design consists of colored lines that vary in intensity and thickness, suggesting forward movement. By choosing the sidewalls, the overall effect of the ski can be made either calmer or more exciting.

# Color Options

## Ski Factory Clean Look

No. 1.1 Clean Yellow

No. 1.2 Clean Blue

No. 1.3 Clean Pink

## Seitenwangen

Black

Yellow

Orange

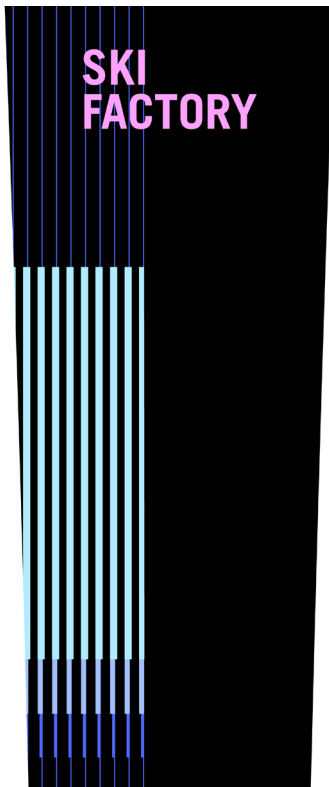

Pink

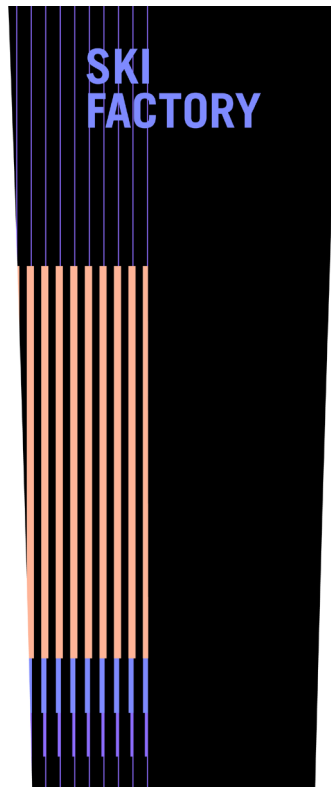

Green

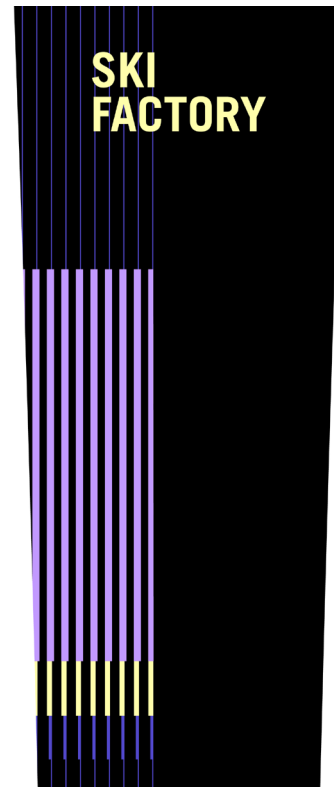

## Ski Factory Speed Look

No.2.1 Speed Blue/Pink

No.2.2 Speed Orange/Blue

No.2.3 Speed Violet/Yellow

# Carbon Tech Pure

The Ski Factory carbon surface: Simple and elegant, all in black. The top layer of carbon looks good and saves additional weight. This design option is only available for carbon skis.

Ski Factory carbon skis are made of full carbon and a high-tech Paulownia ash core. More info about performance can be found in the Shape Finder.

## Design Area

Black is beautiful – no further design options available. You can freely choose the color of the sidewalls.

### Sidewalls

Black

Pink

Orange

Yellow

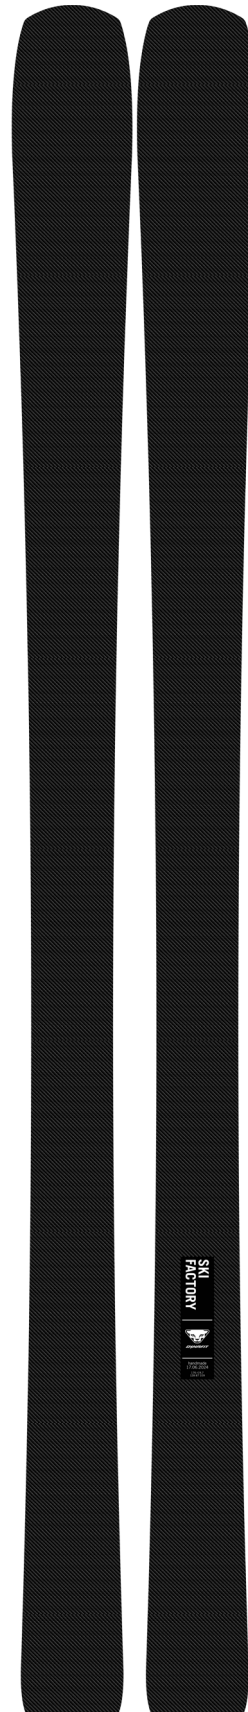

Green

## Pricing

The cost for the carbon look is a flat rate of €150, including the choice of sidewalls.

## Lead Time

Please let us know at least 3 weeks before the workshop if you want a carbon surface for your ski.

# Wood Veneers

Wood veneers look especially elegant, whether simple with a fine grain or elaborate with inlays in different wood colors and / or laser engraving.

## Design Area

Inlays can be designed over the entire ski surface. Unfortunately, due to technical reasons, we cannot engrave ski tips / tails or create continuous designs over the entire ski surface.

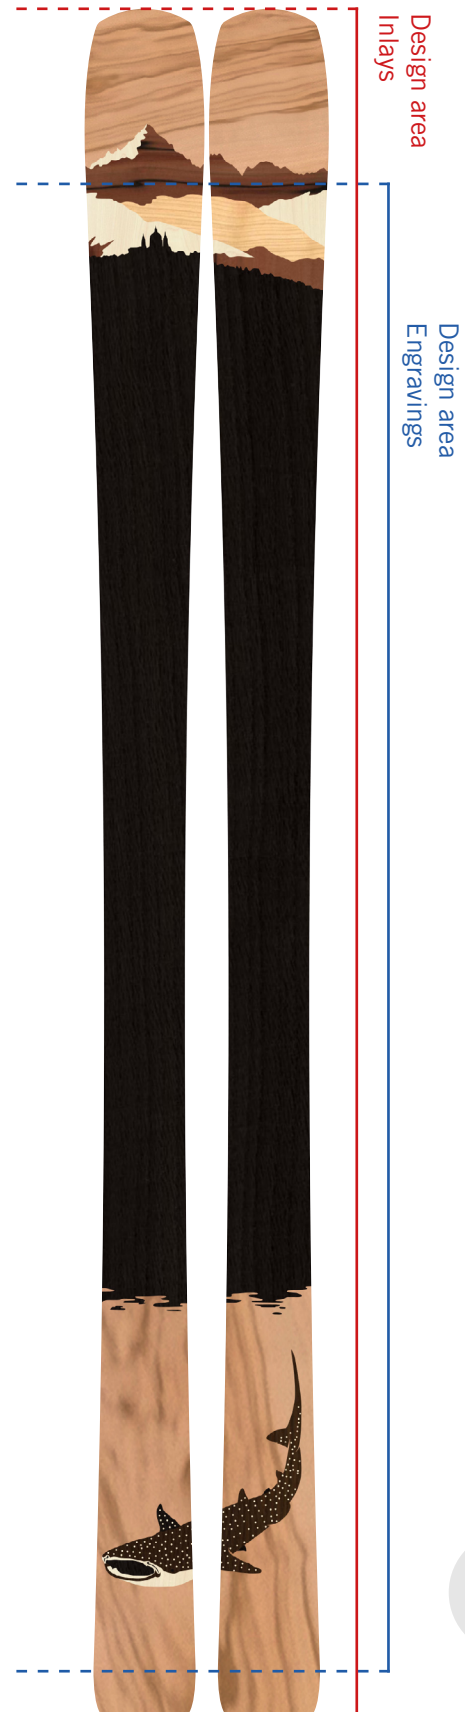

## Sidewalls

Bamboo

## Example

Basic veneer: Coco Oak Coffee  
Tip & Tail: Olive

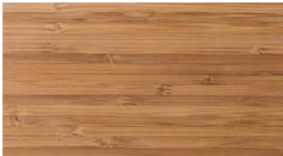

These ten standard veneers are in stock, but the grain and color intensity may vary.

**LIGHT BAMBOO**

Simple and classically elegant. Especially durable and resistant to water and ice

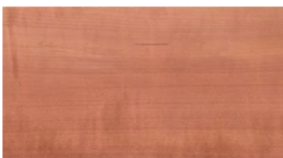

**CARAMEL BAMBOO**

Simple and classically elegant. Especially durable and resistant to water and ice

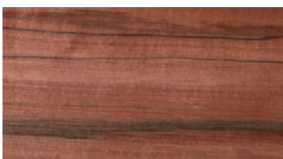

**OLIVE**

Strong grain, very noble, and robust

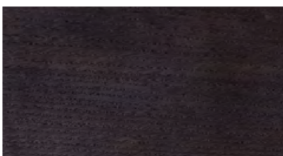

**PEAR**

Native hardwood with a slight reddish tint and even grain

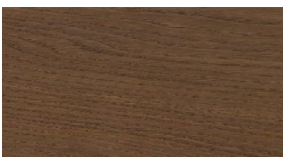

**INDIAN APPLE**

Intense red with a gray-mottled grain

**COCO OAK COFFEE**

Dyed native oak, almost black and elegant

**COCO OAK COGNAC**

Dyed native oak, warm brown with a homogeneous grain

**NUT**

Gray-brown tones with varying dark heartwood grain

**CHERRY**

Long-fibered grain with a red-yellow color play

**MAPLE**

Our lightest veneer, with a fine grain and a silky sheen

## Examples

### Wood veneers

The agony of choosing the right wood – but one thing we can promise you: They are all beautiful!

### Pricing

The price of your design generally consists of the veneer cost and the costs for inlays and / or engravings:

#### **Veneer + Inlays + Engravings = Total design price**

The cost of the wood design or veneer is a flat rate of €150, regardless of the type of wood. This includes the elaborate sanding and varnishing work. Inlays and engravings require careful planning and meticulous handwork. As prices vary depending on individual effort, we have provided four price examples for you on the next page.

## Inlays

**Mini**  
90 €

Includes a small inlay with a maximum area of 10x10cm.

**Small**  
120 €

Includes a small inlay or two mini inlays with a maximum area of 20x20cm.

**Medium**  
150 €

Includes a larger inlay of about 30x30cm, which spans two skis or is placed in the front or rear area of a board – or several mini inlays.

**Large**  
ab 180 €

Includes inlays over both skis, front and back – or over the entire board.

## Gravur

**Mini**  
90 €

Includes a small engraving with a maximum area of 10x10cm.

**Small**  
120 €

Includes a small engraving or two mini engravings with a maximum area of 20x20cm.

**Medium**  
150 €

Includes a larger engraving of about 30x30cm, which spans two skis or is placed in the front or rear area of a board – or several mini engravings.

**Large**  
ab 180 €

Includes engravings over both skis, front and back – or over the entire board.

## **Lead Time**

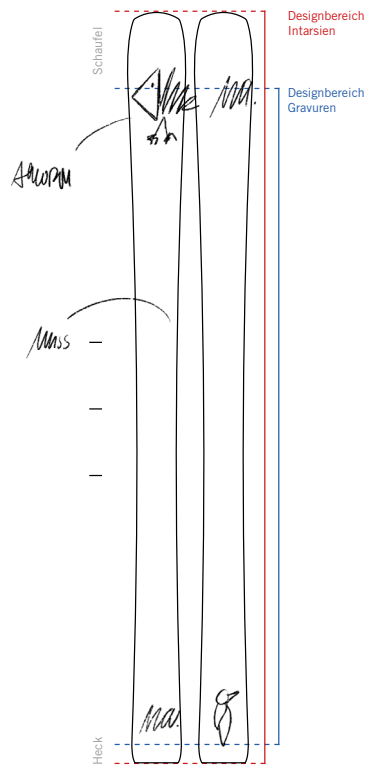

Please contact us about 6 weeks before the workshop so that we have enough time to prepare and implement your desired inlays to the best possible standard and align them with your ideas. If you wish to participate in the workshop on short notice, we will discuss the remaining design options with you personally.

# Design Process

Once you've sent us the design sketch sheet, we'll start working on your custom design requests. Typically, we'll send you an initial proposal and ask for your feedback so that we can make the necessary changes in a second proposal.

Usually, a hand sketch and description of your ideas, along with additional photo or graphic material, are sufficient. Our design team will then implement your ideas or suggest a variation, so you can choose your favorite.

## Example

From your idea to the finished ski or board design.
